

GRIEVANCES AND COMPLAINTS MANAGEMENT POLICY

Purpose

The Kinder Garden has developed a policy and procedures to foster positive relationships with all persons related to the service. Forming a partnership between the service and each child's family is central to providing effective care. These partnerships are characterised by open and extensive communication which is respectful of, and sensitive to, cultural and other differences. In all cases where a parent might make a complaint or air a grievance, management and staff must adhere to the service's Privacy Policy. Staff members are not to involve other staff members, parents or children in an individual concern. This is unethical. It is also unethical to involve other agencies in a concern before seeing the Director. If the nature of the complaint is such that is related to a child protection issue, then management and staff are to follow the procedure outlined in the Child Protection Policy relating to the disclosure of abuse.

If a conflict of interest arises between the parties involved in making the complaint and the person about whom the complaint is made, then the service's management shall call in the service's Child Care Consultant to act as an independent mediator. In this way both parties can be heard in an unbiased manner and are encouraged to bring support person to the mediation meeting.

- The service's Grievances and Complaints Management Policy values:
 - procedural fairness and natural justice
 - a code of ethics and conduct
 - a service culture free from discrimination and harassment
 - transparent policies and procedures
 - avenues for recourse and further investigation.
- The Grievances and Complaints Management Policy ensures that all persons are presented with procedures that:
 - value the opportunity to be heard
 - promote conflict resolution
 - encourage the development of harmonious partnerships
 - ensure that conflicts and grievances are mediated fairly
 - are transparent and equitable.

The Kinder Garden has a duty of care to ensure that all persons are provided with a high level of equity and fairness in relation to grievances and complaints management and procedures. That is, the right to be heard fairly, the right to an unbiased decision made by an objective decision maker; and the right to have the decision based on relevant evidence.

Where an educator believes they will have to share a confidence with another person in order to resolve an issue, or if the nature of a complaint requires that a third party has to be informed in order to meet legislative requirements, they will inform the family of the need prior to any further discussions on the matter.
